

Between the Stacks

April 2024

8 Things Your Librarian Wants You to Know...

As you most likely know by now, our library is so much more than just a place to check out books or enjoy an occasional story time. And, our staff at the New Berlin library happily strives to help you make the most of everything we offer. However, because our library is so multi-faceted, many ins and outs exist that you, dear patron, may not be aware of. Check out our compilation of the top eight things our librarians want you to know at www.newberlinlibrary.org/blog.

Did You Know ...

A total eclipse actually happens about once every 18 months or so, but because Earth is 70% water, most of them happen over an ocean. See if you can catch a glimpse of the next solar eclipse coming up on April 8.
